4TH INTERNATIONAL FORUM "BEAUTY AND AFRICA"

30.01.2014

10-14 February 2014, Ouagadougou, Burkina Faso

This Forum has been organized since 2004. In general, its objective is to bring together representatives from local, national and global companies, women groups, governments and NGOs as well as researchers from African and European universities and local farmers. All participants are directly active in the field of cosmetics. The forum provides them with a opportunity to exchange experiences, highlight challenges and make first steps towards cooperating in the entire value chain - from prospecting to production and marketing - of cosmetics produced from natural resources.

Within this frame the ABS Initiative provides expertise on Access and Benefit Sharing.
